

Dog Crate Instructions

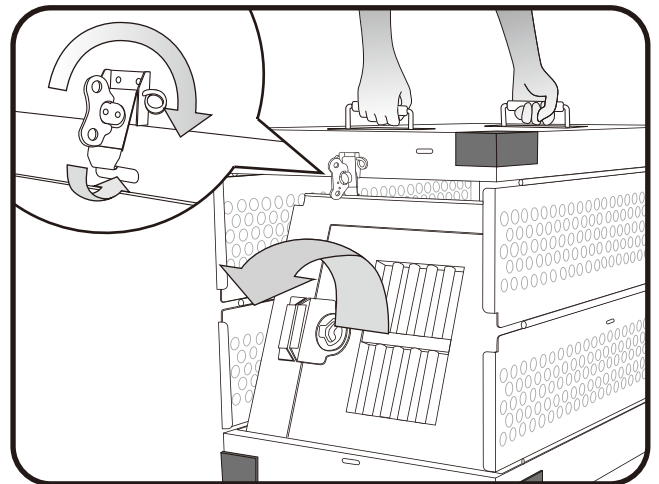

STEP 1

If possible, find a friend to help you, as this will make opening up the crate easier. Begin by loosening the butterfly buckles on the attached bracing. Remove the bracing and set them aside.

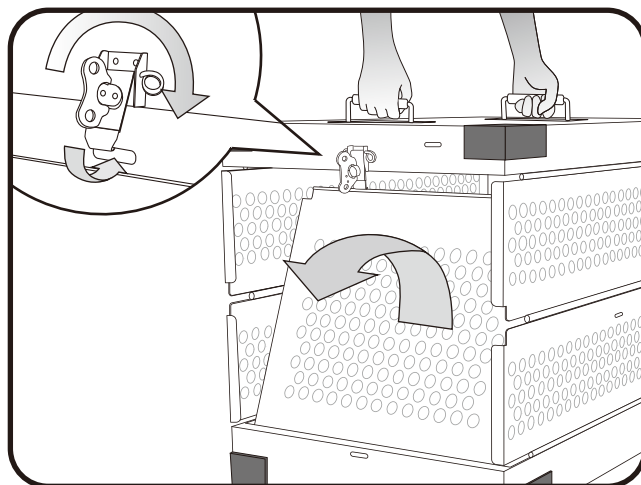

STEP 2

Use the attached handles to lift up the top of the crate. Have your friend pull up the front door and lock it firmly using the butterfly buckle.

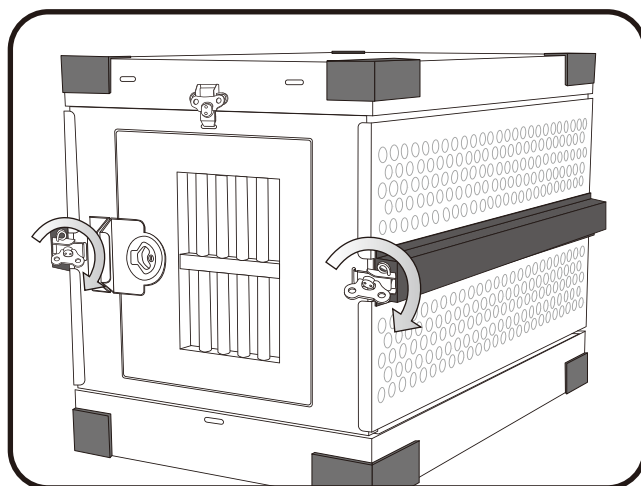

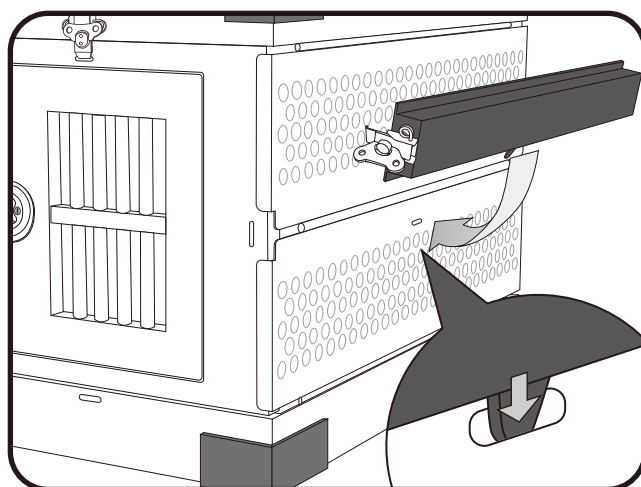

STEP 3

Pull up the back door and lock it firmly using the butterfly buckle.

STEP 4

Line up the side bracing with the holes on the side of the crate. Firmly lock the butterfly buckle on each side of the box.
